## Technical Skills

---

- HTML
- CSS
- JavaScript
- Tailwind
- React
- Express's
- Nodejs
- MongoDB

## Projects

---

### 1. E-Commerce Website

*Tech Stack:* HTML, CSS, JavaScript

- Developed a fully responsive e-commerce website with product listings, filtering, add-to-cart functionality, and checkout flow.
- Implemented user authentication with Firebase and managed cart state using React Context API.
- Integrated animated UI components for better user interaction and seamless navigation.

### 2. Cure Well (modern healthcare appointment booking system)

*Tech Stack:* React, Tailwind, Vite, Node.js, Express, MongoDB Atlas

- Developed a **full-stack doctor appointment system** using **React (Vite) and Tailwind CSS** for a modern, responsive, and mobile-first user interface.
- Designed and implemented **RESTful APIs with Node.js & Express.js**, ensuring smooth communication between frontend and backend.
- Built a role-based dashboard for patients (book appointments, manage profile) and doctors (manage availability, accept/reject appointments).

### 3. Insurance Website (Landing + Quote Estimator)

*Tech Stack:* HTML, CSS, JavaScript

- Created a responsive insurance company landing page with a clean UI and clear CTAs.
- Developed a simple insurance quote estimator using JavaScript based on user input like age, vehicle type, and plan.
- Focused on performance, minimal loading times, and accessibility compliance.

## Work Experience

---

- Frontend Web Developer Intern  
*JMKSofttech — August 2024 to Present*
- Collaborated with senior developers to build responsive and interactive UI components using HTML, CSS, JavaScript, and React.
- Assisted in developing real-world projects including dashboards and client-facing websites.
- Gained hands-on experience with version control (Git), REST APIs, and browser debugging tools.
- Participated in daily stand-ups and code reviews, improving code quality and team collaboration.

## Education

---

College of Commerce, Arts and Science

*Master of Computer Application*

TPS College

*Bachelor of Computer Application*

November 2023

*CGPA:7.88*

March 2021

*CGPA: 7*
